FOR IMMEDIATE RELEASE

## **MK Concrete Construction Launches New Website**

**Frederick, MD** – To better serve its clients and reach out to potential clients, MK Concrete Construction launched a new and much improved website. Users may easily navigate through project types, background history and stay abreast of the latest news and updates.

“I am very excited about the new site. It is user friendly and I think clients will be impressed with the variety of photos we show of the different projects,” stated Robert Rininger, vice president and general manager of MK Concrete Construction.

MK Concrete Construction was developed in 1996 to meet a demand in the marketplace for a full-service concrete contractor who could provide outstanding craftsmanship and responsive service. MK Concrete Construction has the expertise and experience to handle commercial projects of any size.
