Mr. Chuck Brandenburg  
Project Manager  
M-K Concrete Construction  
70 Thomas Johnson Drive  
Frederick, MD 21702

**Re: Ft. Detrick Defense Medical Logistics Center**

Dear Mr. Brandenburg:

In this industry, it seems it's much more commonplace to write letters when things aren't going well, so it's a pleasure to write this one.

I cannot say enough about M-K Concrete's superior performance on this project. You did your work on time and met all the quality and safety standards of the job which is all any GC can expect of a concrete contractor, but you also made it quite enjoyable to work with your people, especially Burt Schulteis and Jeff Levendusky in the field. Everyone did what they had to do without complaint. You made the adjustments that had to be made, without fuss and everything is working out fine.

Additionally, the Corps is also pleased and is talking about doing more tilt-up construction on base because of how well the appearance is being received by their customers.

Overall, a great job. You and your team should be pleased with and proud of this building and their contribution to the project.

Thanks to everyone.

Sincerely,

Craig Pollack  
Senior Project Manager
