

Project Experience

GSK WFI Foundation

Rockville, MD

This project consisted of saw cutting, demolition, removal, and replacement of existing slab for new equipment to be installed inside of an active building. A slick line was required to transport the concrete from the concrete truck to the pour location inside the building.

Client: DPR Construction

Dunkin' Donuts

Middletown, MD

This project involved the installation of a new 1,300 SF concrete infill slab.

Client: ChoiceTraditions, Inc.

WVU Fuel Tank Relocation

Martinsburg, WV

The project scope included installation of footings, walls, and slab on grade for the relocation of a fuel tank at Berkeley Medical Center.

Client: West Virginia University Healthcare

Westview Retail ADA Ramp

Frederick, MD

A new handicap access ramp was provided, which required the disposal of the old ramps, installation of a new curb and gutter system, and the installation of the new ramp.

Client: Saul Centers, Inc.

Project Experience

Woodbridge Apartments

Hagerstown, MD

Installation of footings and slab on grade for a three-story, 37-unit apartment building.

Client: Morgan-Keller, Inc.

Doctors Community Rehabilitation and Patient Care Center

Lanham, MD

This project involved the removal and replacement of concrete due to ADA compliance issues.

Client: Morgan-Keller, Inc.

WVU Healthcare Facility

Harpers Ferry, WV

The project scope included removal and replacement of sidewalks and ADA accessible ramps around the Medical Center.

Client: Amberlynn, LLC.

Ski Liberty Stair Replacement

Carroll Valley, PA

Concrete stairs and sidewalk were removed and replaced due to settlement of subgrade below causing structural cracking to the existing structure.

Client: Liberty Mountain Resort
